Ruddi's Retreat provide holidays from the heart to families affected by Cancer, Life limiting illness and bereavement.

We have three luxury caravans on the East Coast at Primrose Valley, Filey. They all have ramps and decking and one has a hoist.

Do you and your family need a break?
Do you know a family that needs a break?

Then look no further!
Ruddi’s Retreat have three beautiful static caravans based at Primrose Valley, a seaside resort on the East coast. They are fitted out to a very high standard with all mod cons and adapted for families of most abilities (1 has a hoist). The caravans are just perfect for respite holidays and give families a chance to get away from the regime of hospital appointments and the decking areas provide a lovely resting area allowing for periods of reflection.

Our caravans are less than an hour away from Scarborough hospital should it be needed!

Ruddi’s family know first hand just how important a holiday can be when living with cancer. When Ruddi was just six and a half months old he was diagnosed with a rare cancer on his prostate and bladder. He went through months of treatment and during this trying time Ruddi and his family were privileged to be offered a respite holiday at Primrose Valley. Just a few days away made such a huge difference to them all. Now his Mum and her charity want to help others enjoy the same.
